

Appl. No. 10/710,783  
Amdt. dated May 13, 2008  
Reply to Office action of March 28, 2008

**REMARKS**

The Examiner is thanked for the thorough examination of the present application and indicating some of pending claims are allowable. The Final office action, item 5 mention that Claim8 is objected to as being dependent upon a rejected base claim, but would be  
5 allowable if rewritten in dependent form including all of the limitation of the base claim and any intervening claims. Therefore, applicant hereby adds the limitation of “an adder for adding the quadrature-phase baseband signal to a feedback signal for producing an added value; delay unit coupled to the adder for generating an output being the added value delayed by a predetermined time; and multiplier coupled to the delay unit is used  
10 for multiplying the output of the delay unit by a predetermined coefficient to produce the feedback signal.” into claim 1 in this response. After amendment, applicant believes that claim 1 now should be patentable over the cited prior art. Accordingly, other dependent claims pertain to claim 1 should be allowable if claim 1 is found allowable.

Amendment in claims is complying with the indication of allowable subject matter;  
15 applicant respectfully requests that a timely Notice of Allowance be issued in this application.
